

The mobile money-spinner

Flexible presentation space for cool, quick operators

Presenter 0646

Cleverly filled!

Passers-by will be attracted in this case.

Extras on top.

The right accessory .

Tempting eye contact

Any glance that is cast at presented goods when queuing in the checkout zone lasts for a particularly long time: this is the best environment for the Presenter 0646, which is an attractive selling area in the smallest space. The beautifully shaped design accentuates goods of all kinds. The Presenter can be cleverly filled with products to suit the occasion and it attracts spontaneous impulses like a magnet.

The outer and inner values:

Elegantly glazed side panels for appetizing views into the display cabinet

The scope of supply includes 40 mm scanner price rails on all levels of the display shelves

Electronic control unit with a digital display of temperature for constant cooling

Filling to suit the occasion

Spring Colourful Easter eggs, spring herbs or yoghurt drinks
 Summer Soft drinks, 'Smoothies' or antipasti

Autumn New wines, convenience tarte flambées or pies
 Winter Cheese fondue, convenience biscuit dough or sparkling wine

The head cover's open design has an inviting effect and it animates access directly

No-frost system with a honeycombed air outlet

R 404 A refrigerant and pentane foaming agent in the insulation do not have any harmful effect on the ozone layer

Vertical lighting for the best view of goods; optionally available with factory-fitted LED lighting too

Clearly arranged presentation of goods on four level three display shelves are adjustable in height and inclination

Energy-saving drip water evaporation using waste heat from the refrigerating system

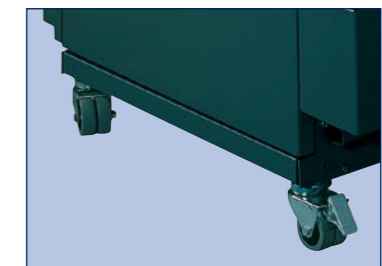

Easier access to the goods by means of a recessed plinth

Vary the location at will

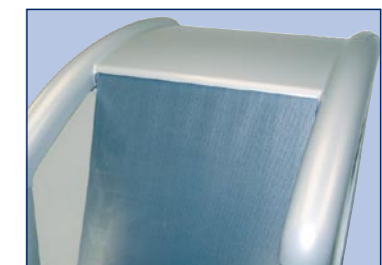

The lockable castors enable you to choose the location freely. You can thus use the Presenter 0646 in various locations as you wish.

The large choice of colours allows you to achieve the desired look to suit your selling space.

Lockable castors allow the display cabinet to be placed at various locations flexibly

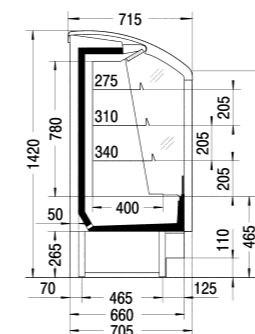

A manually operated night blind (optional)

Presenter 0646. The mobile space-saver from our successful series of refrigerated display cabinets.

Design for good business

Merchandisers with new shop design give each store a clear line and appealing highlights. They present product ranges safely and attractively. They make optimal use of the available space. They can be colour customized to suit each individual store concept and product line, and combined.

This gives you flexibility. And the various extras challenge you to exploit every option in selling.

Best conditions for good business.
